The author tells of humanity's first attempts to colonise distant planets. Kim - who faces many adventures and challenges - begins her trek on the Aldebaran planet. Along the way to Betelgeuse and Antares, she encounters strange creatures, confronts dangers from unknown worlds, and witnesses the damage caused by mankind's insanity. A brand new planet to explore - but people are people, and some things never change. The Antares mission is underway. Kim, her daughter and her companions are on board the interstellar ship that carries the would-be colonists. Conditions are far from ideal, though. The fanaticism and bigotry of a large number of the passengers, all members of the project leader's sect, are putting everyone on edge. As well, there are rumours of substandard equipment for the expedition. By the time they reach Antares, Kim and her friends are already disillusioned . and the worst is yet to come. Key Points: \*Published in English for the first time \*More than 100,000 copies sold of each title in the series \*Features an extremely rich script enhanced by expressive and realistic drawings.
