

Excavations at Ford Airfield, Yapton, West Sussex 1999

By Christopher Place

Heritage Marketing & Publications Ltd. Paperback. Book Condition: new. BRAND NEW, Excavations at Ford Airfield, Yapton, West Sussex 1999, Christopher Place, Excavation by the archaeological department of RPS Planning Transport and Environment on the site of the former airfield at Ford, West Sussex, recorded evidence for prehistoric and Roman settlement from the beginning of the first millennium BC to the second century AD. The incomplete plan of a sub-rounded enclosure dating to the early first millennium BC was recovered, as was a substantial assemblage of later Bronze Age pottery with associated C14 dates. Several contemporary field boundaries and ditched trackways indicated that this part of the coastal plan had been enclosed by this date. The enclosure was subsequently used for limited cremation burial in the later Iron Age and a new co-axial field system was set out during this period on a different alignment to its predecessor. This latter field system may have been partially abandoned in the first century AD when a sub-rectangular enclosure was constructed. Use of the enclosure was short lived, with only limited evidence for activity continuing into the second century. The final phase of activity included limited iron working.

Reviews

This ebook is fantastic. It is actually written in straightforward terms rather than hard to understand. It's been designed in an extremely straightforward way and it is merely soon after I finished reading through this ebook through which in fact modified me, alter the way I really believe.

It is one of my personal favorite pdf. This really is for all those who state there was not a really worth looking at. I realized this book from my dad and I encouraged this pdf to understand.
