Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from **Practical Dynamo Building: With Detail Drawings and Instructions for Winding; Giving Correct Sizes of Wire, Dimensions of Iron, Etc., Etc;; Also Diagram for House Wiring** Ever since electric lighting has become a practical success, there has been a desire, on the part of the general public, to know the method of construction of dynamos. There are many able works on the subject, but far too deep and scientific to reach the class most deeply interested. This work is gotten up especially for amateur builders and non-professional men. All measurements and instructions for winding are taken from machines in actual service. Particular attention has been given to every detail of construction, that they may be thoroughly understood. This work will be of great value, not only to those who wish to build dynamos, but to superintendents, engineers and workmen who have the care of present established systems. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
